OBJECTIVE

I want to find an exciting and challenging position in the Information and Technology industry alongside a company which will continuously motivate and drive me to do my best and improve my skills and abilities in order to assist the company in achieving its mission and goals.

INTERNSHIP

WEB DEVELOPER (MKCS-DIGITTECH) - 2 months

As a web developer intern, I had an opportunity to work on various web projects and gain hands-on experience. During the internship, I had the chance to build my portfolio by working on real projects and make valuable connections in the industry.

PROJECTS

• NODE TASK MANAGER (MERN STACK) - 3 months

Node Task Manager is a full-stack web application tool that helps teams and individuals organize and track their tasks. The task manager offers a user-friendly interface for creating and assigning tasks.

• PORTFOLIO WEBSITE (REACT) - 2 months

This portfolio website is a platform for showcasing my skills and works to potential employers or the public. It serves as an online representation of my identity and demonstrates my abilities in web design and development.

• RESUME BUILDER (HTML, CSS, JS, PHP) - 3 months

The Resume Builder is an web based application that helps the user to create an innovative resume. It include the strength of the fields and help to improve their resume by recommendation.

COURSES

- Google UX Foundations - Coursera (2022)
- Responsive Web Design - FreeCodeCamp(2022)
- Back End Development and APIs- FreeCodeCamp(2023)
